There is a Fixed Cost of City Directory Production

●

There is a necessary fixed cost in production of a Directory. The City does not pay for it — the *subscribers* do.

If there were only ONE sponsor he would necessarily bear the whole cost.

If there were 1,000 sponsors each would bear 1/1,000 of the cost.

MORAL: To keep directory costs DOWN and directory service UP, do your share. Don't be a Borrower — Be Fair.

Merchants referred to as "Borrowers" of the Directory unthinkingly injure themselves in the public estimation. *Someone else has to pay for it for them.*

A Directory Good Enough to Use

An age of errors:

—Poor Spelling (very common).
Most common on chain-store windows.

—Inaccuracy and slack-mindedness.
An increasingly disturbing element in business records.

—Lack of concentration on the job.
Disinterest in the comprehension of vital details.

These are the things to fight against—in your office—among your salespeople—and on your records.

TWO SERVICES

. . . and your community

In this modern age electricity and gas play a prominent part in the development of a community. Whether it be for domestic, industrial or commercial purposes, these two services stand always ready — to act and to serve at the touch or turn of a switch.

The ease and simplicity of their usage has made us accept them "as a matter of fact." This acceptance in itself is a testimonial to their high degree of efficiency.

Walk along any street, day or night, winter or summer, and you see just the outward signs of their existence. Then realize that, at this same time, in homes, stores and factories, these services are being utilized for even wider uses upon which our everyday existence is dependent.

Comparisons made by a Springfield, Mass., special committee found that for every full page of names in the

City Directory

there were only 8 names in another - quite commonly referred to - book of reference.

The argument that there existed any substitute for a good city directory failed signally.

PREFACE

The Fortieth volume of the City Directory includes the towns of Manchester and Essex. Names in the towns in the Beverly district are enumerated with the same system and care as the city and are taken in alternate years. The population of Beverly shows a slight decrease due to war conditions. The number of names being 369 less than 1942. The general directory contains 62% new or changed matter of which 1892 consists of new names this year. In the street directory of Beverly and the towns a special indicator (⊙) marks property owners—a modern feature, established in 1933, also the locations of telephones are shown by an asterisk (*).

Separate Maps of Beverly, Manchester and Essex are included with this volume.

The publishers acknowledge their indebtedness to all who have supplied information and to the advertisers whose patronage assures the city of its annual directory service.

PRODUCING THE PRODUCTIVE

INTRODUCTION

Probably no city in the Commonwealth blends the old and new as well as does Beverly. Founded in 1626, Beverly has handed down to its present generation a worthy heritage of tradition and history. Not until 1900, however, did Beverly begin to show a rapid growth. Since then it has doubled in population. The recent census places Beverly slightly over the 29,000 population class. It may be truthfully said that Beverly today presents the characteristics of a modern city, while retaining the best from the customs and traditions of the past. Let us in brief enumerate the reasons why Beverly is one of the best cities in our Commonwealth.

YOUR BUSINESS LIFE HISTORY — IN THE DIRECTORY FROM YEAR TO YEAR — WATCH IT — CULTIVATE IT

Advertising clubs and all successful advertising merchants agree that the most valuable asset in any form of advertising is . . . .

Build-Up Advertising

Thus, by building up public knowledge of the name and, of course, keeping the public confidence in the goods sold, progress is made surely and business increases.

As an example, any large metropolitan store will admit that the hundreds of thousands spent in advertising are largely assets for the NAME OF THE STORE, as no single advertisement ever returns one tenth the cost of insertion in a large newspaper, in sales which can be checked up from that particular advertisement.

DIRECTORY ADVERTISING is rated on the list of best available media for local name advertising. Its small cost, plus the value of the enumerated names, gives it hearty support.

A DIRECTORY

OVER A MILLION READERS A YEAR

ON A BASIS OF 1000 BOOKS ONLY IN A DISTRICT

Consider the effect of this as NAME ADVERTISING, and do not forget that the book is commonly almost the first thing seen by newcomers in a district, who need facts and information.

CROWLEY & LUNT'S
CITY OF BEVERLY
STREET AND HOUSE DIRECTORY
1943

This guide gives the location of the streets, places, parks, squares, etc., and shows what other streets and places run from them or across them, with the point at which they intersect. The system adopted for numbering the streets of the city is that a person starting at the beginning of any street and following along with the numbers, every even number will be on the left and every odd number on the right hand, with the names of heads of families and persons in business in the order of location.

The cipher (0) is used to designate houses or buildings without numbers, the dash (—) is used to show where connecting streets and avenues cross or intersect, when such intersections or crossings have no numbers, and also to designate railroad crossings and bridges, parks, etc.

When there is more than one family in a house, the down stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; prov., provisions; rd., road; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc. Houses having erroneous numbers are sometimes enclosed in parenthesis (—).

★

Comparisons made by a Springfield, Mass., special committee found that for every full page of names in the

City Directory

there were only 8 names in another - quite commonly referred to - book of reference.

The argument that there existed any substitute for a good city directory failed signally.

CITY OF BEVERLY BUSINESS DIRECTORY

1943

(For Manchester and Essex Business Directory See Back of Book)

Beverly, clean, healthful and beautifully located on the North Shore, with seven miles of the most charming views to be found on this continent, recommends itself to all classes of manufacturers and business men on account of its first-class rail and water facilities and equitable freight rates to all shipping points. Its continuous growth proves it to be the coming city of this part of the Massachusetts coast. Wih a valuation of nearly $50,000,000, within its limits are scores of palatial estates, all year round, or summer villas chosen by the wealth of the nation because of the sheer beauty of this coast. The manufacturing industries comprise machinery, shoes, oil, oiled clothing, iron foundries, mattresses, planing mills, grain elevators, electric works, etc. The shoe industry, established more than a century ago, pays a large annual wage.

The United Shoe Machinery Corporation occupying one of the largest reinforced concrete factory plants in the world and employing 5,000 expert mechanics, pays a wage of over one and one-half millions per year. The Gulf Refining Company has its New England terminal here and docks its large steamships running from Port Arthur, Texas. Spur tracks of the Boston & Maine Railroad connect with all the wharves. Population of Beverly, 1942, estimated about 33,000. Eighteen miles from Boston on the Boston & Maine Railroad, Eastern Mass. Bus connections to all nearby points. Superior harbor. Three banks. Daily newspaper, Superior fire department. Good sewers. Superlighted streets. First-class public schools. Good hotels and theatres. Public school playgrounds costing over $50,000. Modern bath house at Oceanside Park.

NOTE:—It has been found essential (as a general rule) to insert names of firms under the ONE heading only which best represents them, except in the case of patrons, when extra insertions are sometimes made.

*** Patrons' insertions only under headings with asterisk.**

Street and House Directory

1943

Giving the location of the streets, places, parks, etc., and showing what other streets and places run from them or across them, with the point at which they intersect.

The cipher (0) is used to designate houses or buildings without numbers, showing the names of heads of families and persons in business in the order of location. The dash (—) is used to show where connecting streets and avenues cross or intersect, and also to designate railroad crossings, bridges, parks, etc.

When there is more than one family in a house, the down-stairs name is usually given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; r., rear; rep., repairing; smr., summer; s. r., summer resident; var., variety; etc., etc.

* Indicates telephones.

⊙ Property ownership (recorded on village property only, not on country roads).
